

Christ's College Graduation Rate for recent four years

Graduation Rate 2020 (TRACS) : Using the Fall 2014 entering cohort, calculate the percentage of first-time, full-time, baccalaureate degree seeking undergraduate degree completers who did so within 150% of the normal (or expected) time for completion.

The Academic Affairs Office will calculate, record and disseminate graduation rates for each graduating class by determining the number of students who entered Christ's College as freshmen, then adding students who transferred to Christ's College and subtracting students who transferred out of Christ's College, and dividing the number of students graduating by the number of students in the graduating class. (within 6 years)
